**National Association of Women in Construction to Meet in Orange County**

FORT WORTH, TEXAS — The National Association of Women in Construction (NAWIC) will hold its 62<sup>nd</sup> Annual Meeting and Education Conference (AMEC), Aug. 16-19, in Anaheim, Calif. at the Hyatt Regency Orange County.

NAWIC's mission is to enhance the success of women in the construction industry. The NAWIC conference is a powerful tool in accomplishing that goal. More than 400 women from across the nation will gather to network and take advantage of the education opportunities provided by the Conference.

The Conference features 22 seminars and workshops targeted to women in the construction industry. Construction industry topics include dealing with construction project delays, public works and the state of America's infrastructure, earthquake design and preparedness, alternative project delivery methods, and more. Professional development topics such as teambuilding, delivering extraordinary customer service, negotiation, leadership styles, and more will complement the industry seminars. NAWIC will also offer a number of association workshops to aid its members in governing their local chapters.

NAWIC will also host a trade show, Aug. 16-17, during the Conference. Companies such as United Rentals, UPS, Procore, PCL Construction and IRMI are among many who will have booths at the trade show in order to connect with attendees.

Contact Autumn Daughetee, NAWIC communications director, at [autumnd@nawic.org](mailto:autumnd@nawic.org) or (800) 552-3506 for more information. Visit the NAWIC website at [www.nawic.org](http://www.nawic.org). For more information on the NAWIC conference please visit [www.nawicconvention.org](http://www.nawicconvention.org).

###

**About NAWIC**

NAWIC is an international association serving 125 chapters across the United States. It was founded as Women in Construction of Fort Worth, Texas in 1953 to enhance the success of women in the construction industry. In 1955, the charter was expanded to allow chapters to form across the country and the National Association of Women in Construction was born.
