...And more!
Craft careers require:

- Education
- Training
- Skill
EDUCATION AND TRAINING

**APPRENTICESHIP PROGRAMS**
Spend 20% of your time in school and 80% on the job, getting paid and learning from a professional in the field.

**CAREER & TECH EDUCATION**
Gain highly-specific and highly-versatile credentials for construction through hands-on programs in high school, or your local area.

**COMMUNITY AND TECHNICAL COLLEGE**
Participate in construction craft training while earning college credit and obtaining a degree in two years.

**UNIVERSITY DEGREE**
Four-year degrees that focus on both construction and business to efficiently enter the workforce.
There are many paths to a construction career

There's always a way to gain training, secure the right credentials and begin a career in construction!
